

The Building Commissioning Association (BCxA) and the Building Commissioning Certification Board (BCCB) are partnering to offer you a discount on the **New Construction Commissioning (NCCx) 2-day class** and **Associate Commissioning Professional (ACP)** exam if taken together. This offer is good for all classes in 2019.

By taking the NCCx class and the ACP exam together, you will receive a \$250 discount.

The paper and pencil exam is offered at the end of class on the 2nd day and takes about 2 hours. You will be notified within 2 weeks of your exam score. When you pass, you will receive an official certificate from the BCCB and be credentialed with the professional designation, "Certified ACP." If you don't pass this first exam, you can retest up to two more times within the six months from your applications acceptance date at a reduced cost of \$150 per retest, at a testing center near you.

To take advantage of this offer, submit your ACP application and in the body of the email list the date and location of the class you would like to attend in 2019. Once your application is approved you will receive an approval notice by email including a discount code to purchase the classroom training. After you purchase the class, a second transaction will occur charging you for the ACP application fee.

Step 1 – Fill out and submit your **ACP Application**. All applications must be submitted and approved one week prior to the class start date.

Step 2 – Upon approval of your ACP application, purchase the **New Construction Classroom Training** with the discount code provided in your approval letter.

Check out the BCxA University site for dates and locations near you. Check back often as dates are always being added.
